Profile

I am an experienced developer and manager with a demonstrated history of working in the computer industry. I am an individual with strong communication and inter-personal skills, having successfully contributed to team success with hard-work, attention-to-detail and leadership qualities. I am also currently developing my management skills in various domains of the technology industry.

Experience

Committee Head, Aaruush – 2019—Present
Helped organise one of the largest techno-management fests in South India, playing decisive roles in guest invitation and itinerary management. Personally tended to high-profile guests and successfully managed crisis situations.

Associate Technical Lead, Microsoft Learn Student Ambassadors SRM – 2019—Present
Completed multiple projects under the banner of the Technical Team of the club, including a NLP based browser extension, a CLI for keeping API and OAuth Tokens safe and a webinar on the basics of Python. Currently working towards nurturing and developing talented yet inexperienced developers.

Head Boy, Nirmal Bhartia School – 2018—2019
Served as the head of the Student Council of the school, helping implement regulations that improved the school life of the students.

Web Developer, IN-X Union – 2016—2017
Served as a web developer for the school IT Club in Secondary School. Helped organise and manage the techfest Infoyage for 2 years.
